00:00

greenhalgh a graphic design major at 00:02  
dixie state university i'm a senior

00:04

graduating in me so tell me about your 00:09  
experience with your mentor so my

00:11

mentors name is Rachel Ramsay she is a 00:14  
graphic design teacher at Dixie she

00:17

teaches a lot of different classes from 00:19  
typography to graphic design problems 00:23  
she is very smart and she knows what 00:25  
she's talking about she has helped me 00:29  
ever since I started going to school

00:31

here she was my internship advisor my 00:35  
freshman year and she just knows what 00:39  
she's talking about she has she's helped 00:44  
me learn what I need to expect when I 00:46  
enter the job filled she's taught me a

00:49

lot about finding jobs and she was she's 00:55  
been my boss for the past year as well 00:57  
she owns a company called girls go

01:01

digital and it is a company that teaches

01:05

girls aged 8 to 18 how to hack design

01:09

code and make so we're basically

01:11

teaching young girls ways to get into

01:15

technical field since the majority of

01:18

people who are in the technical fields

01:20

are male so she's just encouraging young 01:24

girls to learn about these types of

01:27

things and I think it's really awesome

01:29

it's very inspirational and she has

01:32

helped me so much she will be my teacher 01:36

for independent research class this next 01:39

semester where I'll be putting together

01:42

a portfolio about snowboard design

01:46

because that's my ultimate goal when I

01:48

graduate I want to design graphics for

01:51

snowboards and she knows so many people 01:54

she's hooked me up with multiple

01:57

different opportunities where I've

01:59

learned so much she

02:03

those countless people so it's been

02:05

really good to know her and have her as 02:08

a teacher in a mentor so I hope to learn 02:12

about that and find a good job in that

02:15

field and she's helped me a ton awesome 02:18

thanks Haley
